**PETITIONING THE COURT**

- ☐ To extend the term of supervision for    years, for a total term of    years.  
☒ To modify the conditions of supervision as follows:

The defendant shall participate in a program for Remote Alcohol Monitoring approved by the probation officer for a period not to exceed 6 months, or until discontinued by the probation office and pay for services as directed by the probation officer.

**CAUSE**

As a special condition of probation, Ms. Mustafa was previously enrolled in a remote alcohol monitoring program for a period of six months. On June 19, 2021, Ms. Mustafa successfully completed the remote alcohol monitoring program with no non-compliance issues arising during the entire term. Unfortunately, our office has recently begun to observe a decline in Ms. Mustafa's adjustment and compliance to supervision due to, what we believe, has stemmed from the absence of the monitoring device which previously appeared to be an effective deterrent of relapse.

In July 2021, we received reports from Ms. Mustafa's mother, Insaf Abdulla, that she had seen a noticeable behavior change in Ms. Mustafa since her completion of the remote alcohol monitoring program, and that Ms. Mustafa relapsed with regular, heavy alcohol consumption. We addressed her behavior by conducting

a Noncompliance Conference with Supervisory U.S. Probation Officer, Timothy Furlow, and increased her reporting with drug and alcohol testing.

On September 13, 2021, Ms. Mustafa reported to the office and was administered a breathalyzer which yielded results of 0.097. Ms. Mustafa admitted to consuming alcohol the night prior. During further discussion, Ms. Mustafa acknowledged her need of assistance with her alcohol problem. Ms. Mustafa was able to identify that she did excellent on supervision while being monitoring via the remote alcohol monitoring device and agreed with the probation officer that she would benefit from being placed back in the program.

As a controlling intervention, the probation officer respectfully recommends the Court impose an additional 6-month term of Remote Alcohol Monitoring. As an ongoing correctional intervention, Ms. Mustafa will remain engaged in outpatient co-occurring treatment at Clinical Addiction Professional Services, Durham, NC, which she has since the onset of the term of probation.

Respectfully submitted,

Dwan Bradsher  
U.S. Probation Officer

Approved by:

Timothy L. Furlow  
Supervisory U.S. Probation Officer
